CENSUS GUESSES.

Seven Millions.

The official guess at the population of the United States, according to the twelfth census, is something more than 77,000,000 or an increase of about 15,000,000 in ten years. Dr. F. H. Wines, the assistant director of the census, sounds a note of warning to those who look for a population of 80,-000,000 or more in 1900. The government actuary, J. S. Mc-

Coy, esumates that the population of the United States in June, 1900, will be 77,676,000. It is now, according to his estimate, 76,011,000.

The most elaborate and scientific iese at the population has been made y Dr. H. S. Pritchett, superintendent the coast and geodetic survey, who predicts that the twelfth census will show a population of 77,472,000. His stimute is 204,000 smaller than that of se government actuary. Dr. Pritchett name his figures by means of a formubased upon the growth of the popuation as shown at the ceusus periods from 1790 to 1890.

Woman's Mission.

Successful competition in any field depends on physical health. Shall women vote? Shall they practice law? Shall they compete with men in every field?

Whatever woman's mission may finally be declared to be, it is certain that something must be done for her physical health. Ignorance, superstition and mystery sur round woman's delicate organism. Heroic efforts to endure pain is part of woman's creed. Many women's lives are a constant struggle with lassitude; many are violently ill without apparent cause, and few indeed are in normal health.

This is all wrong and might be different if women would follow Dr. Hartman's adrice. Perhaps the most practical printed Dr. Hartman's book called "Health and Beauty," which the Pera-na Medicine Co., Columbus, O., will mail free to women only. It is certain that Dr. Hartman's Pe-rn-na has proved a perfect boon for women's diseases of the pelvic organs. It permanently. All druggists sell it. "I received your book and commenced

the use of your medicine at once," writes Mrs. H. D. Amoss of Greensboro, Ga., to Dr. Hartman. "I took five bottles of month. The tickets will be good on Pe-ra-na and two of Man-a-lin. I feel like a new woman. When I commende regular trains, and will be limited to taking Pe-ru-na I could hardly walk across my room; now I am doing my own work and can walk to church. I shall never cease to thank you for prescribing for me. I had been under the treatment of two doctors but never received any benefit until I commenced taking your medicine. I wish every woman what train they desire to go. Any you and spare you many years to relieve women who are suffering as I was." Fifty thousand women will be counselled and prescribed for this year free of further information will be cheerfully charge by Dr. Hartman, president of the Surgical Hotel, Columbus, G. All women suffering from any disease of the mucous membrane, or any of the peculiar Bla of women, may write to him and the letters will receive his personal attention & Write for special question blank for women
